

# **Important Safety Information**

## **Maximum Weight Capacity**

- Do not exceed 30 lbs (13.6 kg) per bracket when installed directly into wall studs.
- For shelves mounted with wall anchors, follow anchor manufacturer weight limits.
- Weight must be distributed evenly across the shelf.
- Not recommended for use with TVs, aquariums, or heavy tools.

## **Installation Notes**

- Always mount brackets into wall studs when possible.
- Use a level and secure all fasteners tightly.
- A qualified contractor or professional installer is recommended.
- For indoor use only. Do not expose to moisture or high humidity.

## **Disclaimer**

LumaLux shelves are intended for decorative and light organizational use. Luma and its affiliates are not liable for injury, damage, or loss resulting from improper installation, overloading, misuse, or failure to follow installation instructions. Please use caution and consult a professional installer if you are unsure about your wall type or hardware requirements.
